About us

E-Sign is a secure document management contract automation company trusted by nations, governments and businesses globally. Our core product incorporates electronic signatures, document management, translation automation and ID verification.

We are experts in building platforms, assisting governments with frameworks, policies and regulation around electronic signatures, contract management and ID verification.

Based in the UK, our network infrastructure is second to none, using energy efficient servers housed in independent data centres. Our powerful trademarked, proprietary software is flexible, allowing easy integration and our committed team will work to find a bespoke solution for your needs.

We are accredited by ISO 2700, ISO 9001 and PSN and our product has approved government status.

We are recruiting for an exciting Backend Development role within our rapidly growing business. E-Sign requires a full time software developer, with Ruby / Ruby on Rails experience. The ideal candidate will have previous experience working for a SaaS business.

What you will be doing:

- Working with the Senior Management Team to create new products/features and functionality

- Develop the Backend application and deliver the core business products

- Test driven development

- Website updates

- Working with the E-Sign Development Team to help build connectors to plug into 3rd party software

- Helping to source and fix bugs

What we require from you:

Commercial software development experience with Ruby / Javascript / API development and integration.

Essential Behaviours:

Able to work both independently and as part of a team • Flexible approach to work • Good communicator • Friendly attitude

Salary: Circa £35,000
per year depending on experience

Benefits:

- Modern contemporary office environment with frequent social events.
- Attractive starting salary
- Smart casual dress
- Cycle to work scheme

Schedule:

- Monday to Friday, office based
- Full time

Our interview process

- Apply for the role by sending your C.V. to *careers@e-sign.co.uk*
- Successful applicants will be contacted to schedule the initial telephone interview
- Final stage interview will be a Face-to Face Interview at our Head Office
